

## Commercial Project

**Site:** “5-Star Hotel Elbresidenz” Bad Schandau, Germany

**Task:** Protection against River high tide (Elbe)

**Specialty:** Not visible when dismantled

**RS-Solution:** Protection height from 1.20m up to 2.70m with a demountable system

### Result:

The complete hotel compound is surrounded by a freestanding flood protection system.

The different storage heights have been a particular challenge under consideration of the special terrain.

The total length consists of 380 meters.
