

Commercial Project

- Site:** “Shops & restaurants Elbresidenz” Bad Schandau, Germany
- Task:** Protection against increase of river level (Elbe)
- Specialty:** No impact to traffic and visitors of the market square
- RS-Solution:** Protection height from 1.20m up to 2.70m with a demountable system

Result:

The complete shopping and restaurant compound is protected by a demountable system.

The different storage heights have been a particular challenge under consideration of the special terrain.
